I. BACKGROUND

1. The Asian Development Bank (ADB) approved the South Asia Tourism Infrastructure Development Project (the Project) on 16 November 2009. The Project aims to support inclusive growth through tourism development in Bangladesh, northeastern state of India, and Nepal. It was designed to develop the high-priority tourism circuit of the subregion, covering Paharpur area of Bangladesh; Sikkim state of India; and Lumbini area of Nepal.¹ The Project includes (i) upgrading of airport and lastmile road connectivity; (ii) improving infrastructure and services of destinations such as upgrading visitor management infrastructure and services; (iii) building capacity of sector agencies for sustainable protection and management of natural and cultural heritage sites and tourism-related infrastructure and assets; (iv) strengthening linkages between tourism and local people; and (v) building capacity of local communities to obtain greater benefits from tourism. The total cost of the Project is \$89.5 million with \$15 million for Bangladesh, \$28 million for India and \$46.5 million for Nepal.² The Project's closing date is on 15 March 2015.

2. The additional financing concerns the project intervention in Nepal Portion's Component 1 relating to enhancing air transport infrastructure and services for direct international connectivity to Lumbini by financing for necessary capacity upgrading of GBA³ to meet expected demands and standards(Figure 1). The original project design intended to upgrade GBA to a regional international standard.⁴ There will be no change in the other two Nepal Portion

components, which aim at (i) improving protection and management of Lumbini area, and (ii) fostering community participation, capacity building and project management. The Ministry of

¹ The Bangladesh, India and Nepal portions have Loan 2580, Loan 2578, and Loan 2579 and Grant 0179, respectively. The Nepal portion also comprises of Loan No. 8247 from OFID.

² The Bangladesh portion of the Project comprises \$12 million ADF loan from ADB and \$3 million from the Government of Bangladesh; India portion has \$20 million OCR loan from ADB and \$8 million from the Government of India; and the Nepal portion has \$12.75 million ADF grant and \$12.75 million ADF loan from ADB, \$15 million loan from OFID, and \$6 million from the Government of Nepal.

³ GBA is located in Siddhartha Nagar, about 20 km east from Lumbini connected by an all-weather road.

⁴ "Regional International Standard" airport can cater to medium body aircrafts such as Boeing 737 and Air Bus 320.

Culture, Tourism and Civil Aviation (MOCTCA) is the Executing Agency (EA), Civil Aviation Authority of Nepal (CAAN) is the implementing agency (IA) for upgrading GBA, and the Lumbini Development Trust (LDT) is the IA for protection and improvement of Lumbini, which will also be the IA of the proposed Clean Public Transport Services (CPTS) under the Asian Clean Energy Fund (ACEF), as it is incorporated into Component 2 of the Project. Upgrading of GBA is estimated to take 3.5 years from the time of signing contract, and can be completed by June 2017 and the CPTS is estimated to take 2.5 years after the grant approval and can be completed within December 2016.

II. SCOPE OF LAND ACQUISITION AND RESETTLEMENT

3. The Project, which will upgrade GBA to an international airport will expand the runway from 1,500x30m to 3,000x45m. It includes runway expansion; side strip improvement; runway and taxiway widening; runway and taxiway pavement strengthening; airside and landside drainage improvement; runway drainage expansion; GhagharaKhola(stream) diversion; road relocation; fire station and fuel farm expansion; water supply and security fence improvement; and construction of a new apron with rigid pavement, terminal building, control tower, airlines building, customs and cargo building, aircraft maintenance building, and security post. Key features of the GBA subproject is in Appendix 1.

4. Implementation of the proposed components required land acquisition for a strip of 4,100m in length and 250m width at the south of the existing runway. Figure 2 shows the layout of the proposed expansion. A full resettlement plan (RP) was prepared under the original project to mitigate impacts due to land acquisition. The RP recorded that a total of 590 agricultural and residential land plots (92.89 ha) belonging to 312 households and some public and private infrastructure will be affected, including a total of 17 residential structures. There will also be

Figure 2: Satellite Image of the GBA and Proposed Expansion Layout

Source: CAAN, 2006

impacts on 2 primary schools (one private and one public). Other assets to be affected are trees, wells, a shrine, and two access roads. The recorded impacts are summarized in Table 1. These are based on preliminary surveys including boundary demarcation and inventory of loss followed by the census survey of the affected households undertaken by CAAN.

5. Reassessment by the Government with support of the design and supervision consultant (DSC) concluded GBA should be upgraded to an international standard with 3,000m runway that can cater to wide-body aircrafts,⁵ larger aprons (30,400 sq m) and terminal building (15,170 sq m) in order to accommodate higher number of expected passengers. This has necessitated river diversion and drainage work, and higher capacity of airfield ground lights. On the basis of these considerations, the GBA design was revised.

6. During the detailed design, acquisition of commercial structures was avoided by shifting associated structure to the existing airport compound. However, acquisition of a few additional land plots covering 4.38 ha was further required to accommodate the change in design resulting in land acquisition increasing to 869 land plots belonging to 389 households. Other components including new terminals, control tower, and other passenger related amenities will be sited within the existing airport compound.

Table 1: Summary of Involuntary Resettlement Impacts

Impact	Original RP	Updated RP
Impacts on Land	92.89 ha (590 plots)	97.27 ha (869 plots)
Permanent Agricultural Land to be Acquired	91.620	91.08
Permanent Residential Land to be Acquired (ha)	0.3400	0.3400
Permanent Commercial Land to be Acquired (ha)	0.9300	0.9100
Public Land (barren) to be Acquired	-	4.94
Affected Persons (APs)		
Households Affected by Loss of Agricultural Land (APs in bracket)	292(1,752)	389 (2,295)
Households Affected by Loss of Residence (APs in bracket)	17 (102)	17 (102)
Loss of Livelihood		
Households Losing Agricultural Income (APs in bracket)	292(1,752)	389 (2295)
Vulnerable Affected Households		
BPLHouseholds ¹ (APs in bracket)	45 (270)	45 (270)

¹ Below Poverty Line.

⁵ "International standard" airport can cater to wide body aircrafts such as Boeing 777 and Air Bus 340.

III. SOCIOECONOMIC INFORMATION

A. Identification and Enumeration of Persons to be Affected

7. CAAN has undertaken an inventory of the AHs within the proposed project location jointly with the office of the Chief District Officer (Rupendehi district). A total of 869 plots have been inventoried. This inventory identifies the affected persons (APs), their plot numbers and area forms the basis for the land acquisition and compensation process. Appendix 2 provides the inventory of the 869 plots that are impacted by the proposed airport expansion. The 869 plots belong to 389 households, which include 372 agricultural households, 17 residential households, 1 commercial property (private school), and 1 community property (public school). A total of 2,295 persons of 389 households were counted as APs during detailed assessment survey. None of the households lose 100% of total land.

B. Socioeconomic Survey Results

8. A census and a socioeconomic survey were carried out to collect socioeconomic information of the AHs. These informed the formulation of the RP, which addresses the specific impact categories, and is in line with the ADB involuntary resettlement (IR) requirements and the applicable laws of Nepal. The survey of 199 AHs documents the socioeconomic profile of the APs including identification of impacts with respect to structure, land, livelihood, and income sources, and vulnerability of the AHs. In terms of income sources, the head of household dependency on agricultural income is quite high, with only 12% involved in non-cultivation activities as the primary source of income. These include salaried employment, small trade and businesses. A total of 79 AHs (40%) have a family member (beyond the head of AH) involved in non-cultivation related activities. Sixty-three AHs (about 32%) have landholding in other parts of the district.

9. Land acquisition will displace 17 households due to loss of residential structures. All 17 structures will have to be completely demolished. Cultivation on own land and participation as agriculture laborers in the nearby villages are the major occupation of the AHs. The houses are built with mud walls and floors with thatched or tile roofing. All the surveyed households have agricultural land parcels that are not impacted due to the Project within the same area or nearby locations, wherein alternative residential structures can be constructed. Further, consultations with the residential households reveal a preference to relocate to a place of their choice nearer to their agricultural fields. Latest consultation held during September 2012 and August 2013 reported that majority of the AHs have already shifted to newly constructed houses and a few are under construction expected to be completed within a few months. The houses built are better quality and condition than the demolished ones.

10. The owner of the private primary school has received compensation from CAAN and a new building is under construction in the alternate land parcel they own. The school is serving 300 students and will be operated in the new building before award of the GBA civil works contract. The government school affected by land acquisition is under construction in 0.75 km distance from the existing location. The school has been able to get more land and build better building compared with the existing land and building.

C. Loss of Income

11. Land acquisition will also result in loss of income for the AHs. The AHs' dependency on agriculture income noted above is 88% either by selling agro-products or working as seasonal

wage laborers. The agricultural workers earn NRs150 per day and are employed about 160-180 days a year (during two seasons). Located close to the Siddhartha Nagar urban area, there is a potential for involvement as daily laborers in the city, outside the period of their involvement as agricultural labor. Consultations also reflect that workers would seek agricultural employment in nearby villages as there is shortage of agricultural laborers in the district during the cropping and harvesting seasons. The employees in both private and public schools will not lose their income sources. The school management confirmed that the staff will continue their job in the relocated premises.

D. Vulnerabilities

12. Impact on vulnerable groups has been identified with respect to social vulnerability criteria for below poverty line⁶ (BPL), women-headed, *janjati*, and *dalit* households losing their entire land who are fully dependent on agriculture for livelihood. A total of 84 households are identified as vulnerable households comprising 27 BPL, 39 female-headed, 12 indigenous people, 6 *dalit* households. These households shall be provided additional incentives such as allowances or preference to opportunity for employment generated by the Project or opportunity to participate in income generating training.

13. There is a high concentration of *janjati* and *dalit* families in the GBA area, typical of the entire Terai region, which is dominated by Indo-Nepalese groups, whose ancestors had entered Nepal from the south, and these groups follow caste-based systems of social hierarchy. The social, cultural, economic, and political characteristics are similar to the other Nepalese communities inhabiting in the Terai, and generally homogeneous within the GBA area. Economic status of the *janjati* and *dalit* households is equivalent to the rest of the households. The project results will benefit the entire population, including the ethnic groups. The negative impacts on APs are mostly related to land acquisition and are addressed through provisions in the entitlement matrix.

E. Socioeconomic Profile of Surveyed AHs

14. This section outlines the socioeconomic characteristics based on information of the 199 surveyed AHs.

1. Social Profile

15. The subproject area is largely dominated by Hindus, accounting for nearly 98% of the surveyed households. Nearly 80% of the AHs speak dialects while the remaining speaks Nepali.

16. **Age Groups:** As per the socioeconomic survey, 767 surveyed persons (62.7%) are in the working age group of 15-60 years. The details of the age groups are given in Table 2.

Table 2: Age Groups amongst Surveyed AHs

Age Groups	No. of APs	Percentages
Below 15 Years	340	27.8
15-60	767	62.7

⁶The minimum household income above poverty level was determined by multiplying the per capita amount to the average family size of subproject area, which is 5.9.

Above 60	115	9.4
Total	1,222	100.00

17. **Literacy.** Literacy profile of the 1,222 surveyed APs show 230 (33.4%) males reporting illiteracy compared with 322 (60.4%) for females. The percentage of APs beyond 12 level education is low, with only 31 (<4%) of the APs in this category, 10 of whom are females. Out of the 199 households, 121 respondents or 60% were reported to be illiterate. Detail on their education status is in Table 3.

Table 3: Educational Levels of AHs

Education Levels of Household Heads	No of Affected Households	Percentages
Illiterate	121	60.8
Literate	14	7
Upto 4 th	14	7.0
5 th	15	7.5
6 th -8 th	20	10.1
9 th -10 th	20	10.1
11 th -12 th	5	2.5
Graduate	3	1.5
Professional	1	0.5
Grand Total	199	100.0

18. The socioeconomic surveys indicate that a considerable percentage of women (86%) are not formally employed. Most of the women respondents are mainly involved in household chores like caring for children, fetching water, collecting firewood, and performing other domestic works. Most of them engage on farming. Women's role in decision making was assessed through the socioeconomic questionnaires where 60% of the women respondents reported to be taking active part in decision making on household matters.

2. Economic Profile

19. As reflected from the socioeconomic survey, major share of the households (79.4%) are farmers. A few households are involved in business, trade and as drivers. With respect to other sources of income, 4.5% of the households reported to be not in workforce or are unemployed. Details on their principal sources of incomes are given in Table 4.

Table 4: Main Source of Income of AHs

Main Source of Income of the Head of the Household	No. of AHs	Percentage
Cultivator	164	79.4
Agricultural Laborer	10	5.0
Salaried	9	4.5
Business/Trade	2	1.0
Others (Drivers, NRI, Househelp)	5	2.5
Not in Workforce	9	4.5
Total	199	100.0

20. The poverty status of the respondents were estimated based on the national poverty line of NRs4,400 (\$77) per capita per annum and based on calorie intake, housing and various non-food standards (ADB, 2002). Out of the 199 surveyed households, 26 respondents or 13% are below the poverty line.

Table 5: Income Categories of Affected Households

Income Category (NRs)	AHs	Percentages
Less than 26,400 (BPL)	26	13
26,400-36,000	36	18
36,000-72,000	52	26
>72,000	86	43
Total HH	199	100

21. The 26 AHs that are below the poverty line include 25 agricultural AHs. With the exception of 3 of these households, the remaining 22 will be affected by total loss of land and 1 will lose a residential structure. In terms of their social profile, 11 are *janjatis* 3 *dalits*.

22. **Asset Ownership and Indebtedness.** Indicators like possession of durable consumer items, indebtedness, and structure of houses are indirect indicators of the general standard of living of AHs. Amongst the 199 surveyed households, 170 reported having permanent residences with roof and walls made up of concrete. Twenty respondents reported having semi-permanent residences, made of asbestos, brick and corrugated zinc sheet. Most are legal owners of their residences with the exception of 4 households who either stay in rented accommodation or sharing without rent.

23. Vehicle ownership amongst the APs is very limited with only about 20% of the AHs owning either a bicycle or a motorbike. Similarly, the asset ownership in terms of consumer goods is very limited with hardly any consumer goods ownership, apart from television and mobile phones, which is typical in the Terai region of Nepal. A total of 67 respondents reported to be indebted to either banking institutions or private money lenders. The average loan amount is NRs117,000. Twenty-four respondents used their land as collateral for loan.

IV. ASSESSMENT OF RESETTLEMENT POLICY AND LEGAL FRAMEWORK

24. This section discusses the key national resettlement policies and legal issues involved in land acquisition and compensation. It describes the principles and approaches to be followed in minimizing and mitigating negative social and economic impacts of the GBA expansion. The RP has been prepared based on the general findings of the census and social survey, field visits, and meetings with various affected persons in the GBA area. The principles adopted establish eligibility and provisions for all types of losses.

A. Applicable Legal and Policy Framework of the Government of Nepal

25. Nepal lacks a comprehensive policy on IR. However, there are many acts, rules and regulations governing land acquisition, and IR safeguards, which are relevant to the Project, which are listed in Table 6.

Table 6: Review of National Acts, Rules, Regulations, and Guidelines

S N	Involuntary Resettlement Acts, Rules and Regulations	Description of Requirements
1	Interim Constitution of Nepal, 2007	Guarantees the fundamental rights of a citizen. Article 19 (i) establishes the right to property for every citizen of Nepal, whereby every citizen is entitled to earn, use, sell, and exercise right to property under the existing laws. Article 19 (ii) states that except for social welfare, the state will not acquire or exercise authority over individual property. Article 19 (iii) states that when the state acquires or establishes its right over private property, the state will compensate for loss of property and the basis and procedure for such compensation will be specified under relevant laws.
2	Land Reform Act, 1964	Establishes tillers' right on the land, which s/he is tilling. The act additionally specifies the compensation entitlements of registered tenants on land sold by the owner or acquired for the development purposes. A landowner may not be compensated for more land than s/he is entitled under the law. The Act's most recent amendment in 2001 has established a rule that when state acquires land under tenancy, the registered tenant and the landlord will each be entitled to 50% of the total compensation amount.
3	Land Revenue Act, 1977	Article 8 of the Act states that registration, change in ownership, termination of ownership right, and maintenance of land records are done by Land Revenue Office (LRO). Similarly, Article 16 says, if land revenue is not paid by concerned owner for long time, the revenue can be collected through auction of the parcel of the land for which revenue has been due.
4	Land Administration and Revenue Act (LARA), 1977	This is the main Act to carry out land administration including maintenance and updating records, collecting land revenue and settling disputes after completion of survey and handing over of the records to LRO by Survey Parties. It authorizes the LRO to take responsibility for registration, ownership transfer and deed transfer of land. This Act also authorizes LRO to transfer ownership/deeds of individual land, if any person applies for ownership transfer of his/her land.
6	Guthi Corporation Act, 1976	Section 42 of the Act states that Guthi (religious/trust) land acquired for a development must be replaced with other land.
7	Land Acquisition Act, 1977 and its subsequent amendment in 1993	Specify procedures of land acquisition and compensation. The Act empowers the Government to acquire any land, on the payment of compensation, for public purposes or for the operation of any development project initiated by government institutions. There is a provision of Compensation Determination Committee (CDC) chaired by Chief District Officer to determine compensation rates for affected properties. The Act also includes a provision for acquisition of land through negotiations. It states in Clause 27 "notwithstanding anything contained elsewhere in this Act, the Government may acquire any land for any purpose through negotiations with the concerned land owner. It shall not be necessary to comply with the procedure laid down in this act when acquiring land through negotiations."

B. ADB's Involuntary Resettlement Policy

25. The important elements of ADB's Safeguards Policy Statements 2009 on IR are (i) compensation to replace lost assets, livelihood, and income; (ii) assistance for relocation, including provision of relocation sites with appropriate facilities and services; and (iii) assistance for rehabilitation to achieve at least the same level of well-being with the Project as without it. Some or all of these elements may be present in a project involving IR.

26. For ADB-funded operations requiring IR, resettlement planning is an integral part of project design, to be dealt with from the earliest stages of the project cycle, taking into account the following basic principles:

- (i) IR will be avoided where feasible. Where population displacement is unavoidable, it should be minimized;
- (ii) All lost assets acquired or affected will be compensated. Compensation is based on the principle of replacement cost;
- (iii) APs need to be provided with sufficient resources to re-establish their livelihoods and homes with time-bound action in coordination with civil works;
- (iv) APs are to be fully informed and meaningfully consulted;
- (v) APs are to be assisted to integrate economically and socially into host communities so that adverse impacts on the host communities are minimized and social harmony is promoted;
- (vi) Absence of formal title to land is not a bar to assistance entitlements;
- (vii) APs are to be identified and recorded as early as possible to establish their eligibility, through a census which serves as a cut-off-date, and prevents subsequent influx of encroachers;
- (viii) Particular attention to be paid to vulnerable groups including those without legal title to land or other assets. Households headed by women, the elderly or disables, and indigenous groups. Assistance must be provided to help them improve their socioeconomic status; and
- (ix) The full resettlement cost to be included in the presentation of project costs and benefits.

C. Comparison of Borrower's Policy with ADB's Policy Requirements

27. Table 7 below compares gaps between national legal framework and ADB's SPS requirements and delineates the measures to fill the gaps.

Table 7: Gaps between Government Law and ADB's SPS and Measures to Fill Gap

Key Issues	Government Laws	ADB's Safeguard Policy Statement	Measures Adopted in the Resettlement Plan
Severity of Impact: Loss of more than 10% of the productive	Do not consider the percentage loss of income or total land holdings	Consider as significant impact, livelihood, and income restoration program such as training and other measures to	Provision to provide training and measures in the entitlement matrix

assets and income		restore and improve standard of living of AHs	
Squatters and illegal occupants or non-titled land users	LARA 1977 do not consider squatters, encroachers, and non-titled land users for compensation, but the Land Reform Act entitled registered tenant to 50% of the total compensation amount.	Not entitled for compensation for land; squatters, vulnerable encroachers, non-title holders are entitled to payment for the structures or houses, business, and other assistance	Provision to provide compensation for the structures/houses/ business, including loss of sources of livelihoods in the entitlement matrix.
Valuation of affected lands, houses and other structures and trees	Compensation rate will be determined by CDC, consisting of (i) CDO, (ii) representative from DDC, (iii) Chief of LRO, (iv) Project Manager, based on market rate.	All compensation is based on the principle of replacement cost.	Provision for replacement value for loss of lands, houses or structures, including transaction costs. APs are allowed to take salvaged materials. CDC will make final decision on the rates in the presence of representatives from APs, VDCs who will attend the meeting as an observer.
Other assistance for relocation of houses	No provision.	All the eligible APs, including tenants and employees are entitled to receive financial assistance to cover physical and economical displacement.	Provision for the transitional allowances and transport allowances.
Vulnerable Groups	No provision.	Focused on poor and vulnerable groups to avoid future impoverishment and create new opportunities.	Provision for income restoration program and other financial assistance.

ADB = Asian Development Bank; CDC = Compensation Determination Committee; CDO = Chief District Officer; DDC = District Development Committee; AH = affected households; AP = affected persons; VDC = Village Development Committee

D. Land Acquisition and Resettlement Policy for the Project

a. Policy Principles

28. The resettlement principles adopted in this Project will provide compensation and resettlement assistance to all APs and businesses, irrespective of titles, in accordance with ADB's SPS requirement 2: Involuntary Resettlement. The existing policy and legal provisions

of the Government are inadequate to meet the ADB's policy requirements. Taking into the account experiences and learning from the original project, the additional financing will adopt the following key resettlement principles:

- (i) Involuntary land acquisition and resettlement impact will be avoided or minimized through careful planning and design;
- (ii) For any unavoidable involuntary land acquisition and resettlement, APs will be provided compensation at replacement cost;
- (iii) The Compensation Determination Committee determines compensation rates based on replacement cost principle;
- (iv) Local stakeholders will be systematically informed and properly consulted during project design and implementation, particularly on land acquisition and compensation options;
- (v) The absence of formal legal title to land will not be a bar to compensation for house, structures and trees/crops, and particular attention will be paid to vulnerable groups and appropriate assistance provided to help them improve their socio-economic status;
- (vi) All APs will be properly identified and recorded in a census in which cut-off date for their eligibility is the last day of the survey in the project area, and will be notified in advance when land for the subproject will be acquired;
- (vii) Land acquisition and resettlement will be conceived as a part of the Project and the costs related to resettlement will be included in and financed out of the project cost;
- (viii) Relocated APs will be provided with assistance to maintain, or improve their pre-subproject living standards, income earning capacity and production levels;
- (ix) Special assistance measures will be incorporated in resettlement implementation process to protect the socially and economically vulnerable groups that will be affected;⁷
- (x) Effective mechanism for arbitration of complaints and grievances will be in place during resettlement implementation;
- (xi) Compensation payment will be provided prior to displacement, and other resettlement assistance will be initiated prior to award of civil works contract.

b. Entitlements

29. Entitlements are derived from the Land Acquisition Act 1977 and ADB SPS 2009. All the APs will be compensated at full replacement costs. Those affected will be entitled to maintain at least their standard of living at pre-project level, and to receive compensation for all types of losses, including land, crops, trees, structures, and any other assets at full replacement value. Vulnerable households will be eligible for further assistance such as counseling on compensation fund management, income generating training and priority access to project employment opportunities.

30. The date of the census survey will be the "cut-off-date"⁸ for the entitlement, and owners of affected assets till such a date will be eligible to be categorized as APs. The census date June 2008 is defined as cut-off-date for entitlement in this Project. The displaced persons will be entitled to a combination of compensation measures and resettlement assistance,

⁷This includes ethnic minorities, indigenous people, women-headed households, household headed by elderly people, and people living below the poverty line.

⁸ The cut-off date for the title holder is based on according to the Land Acquisition Act, and for the non-title holders the date of the census survey. Those who encroach into the subproject area after the cut-off date will not be entitled to compensation or any other assistance.

depending on nature of ownership rights of lost assets and scope of impact, including social and economic vulnerability of APs. Table 8 (Entitlement Matrix) provides further details regarding application of the principles, definition of entitled persons, entitlements, and indicates results of actions.

Table No. 8: Entitlement Matrix

	Type of Loss	Application	Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
1a	Loss of land	Homestead land, agricultural land, or vacant plot	Owner(s) with legal title	<ul style="list-style-type: none"> • Land-for-land arrangements of equal productive capacity satisfactory to AP • AP option for cash compensation equivalent to replacement cost • Provision of stamp duty, land registration fee, capital gains tax, and value added tax incurred for replacement land • Option to be compensated if remaining land is no longer viable • Provision of access to equivalent common property resources previously accessed • Additional compensation for vulnerable households (item 5) 	<ul style="list-style-type: none"> • If land-for-land is offered, title will be to both husband and wife • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • Government to provide replacement land • Replacement cost at Community Consensus Valuation by Committee headed by CDO • Implementing NGO to consult APs on compensation • EA to provide budget and release cash compensation payments • SDS to determine viability of remaining land
1b	Loss of land	Homestead land, agricultural land, or vacant plot	Tenant(s) and lease holder(s)	<ul style="list-style-type: none"> • Compensation equivalent of up to 3 months of rental • Additional compensation for vulnerable households (item 5) 	<ul style="list-style-type: none"> • Landowners will reimburse tenants and leaseholders land rental deposit or unexpired lease • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • PMIU with implementing NGO will confirm land rental, ensure tenants and leaseholders receive reimbursement for land rental deposit or unexpired lease
1c	Loss of land	Agricultural land	Share cropper(s)	<ul style="list-style-type: none"> • 60 days advance notice to harvest standing seasonal crops, if harvest is not possible, compensation for share of crops (item 4) • Additional compensation for vulnerable households (item 5) 	<ul style="list-style-type: none"> • Work schedule to allow harvesting prior to acquisition and avoid harvest season • Vulnerable households to be identified during detailed measurement surveys conducted as 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU

					part of the RP	
1d	Loss of land	Homestead land, Agricultural land, or vacant plot	AP(s) without legal titles (squatter) and encroachers	<ul style="list-style-type: none"> • 60 days advance notice to shift from occupied land • Additional compensation for vulnerable (item 5) 	<ul style="list-style-type: none"> • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU
2a	Loss of structure	Residential/commercial structure and other assets (e.g. fences, gates, posts) and structures	Owner(s) with legal title	<ul style="list-style-type: none"> • Cash compensation equivalent to replacement value of structure (or part of structure) • Option to be compensated for entire structure if remaining structure is no longer viable • Rights to salvage materials from structure • Provision of all taxes, registration costs, and other fees incurred for replacement structure • Transfer and subsistence allowance of up to 3 months • Additional compensation for vulnerable households (item 5) 	<ul style="list-style-type: none"> • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • Replacement cost at Community Consensus Valuation by Committee headed by CDO • SDS to determine viability of remaining structure • SDS to review allowances and verify all charges
2b	Loss of structure	Residential/commercial structure and other assets (e.g. fences, gates, posts) and structures	Tenant(s) and lease holder(s)	<ul style="list-style-type: none"> • Cash compensation equivalent to replacement value of structure (or part of structure) constructed by the AP • Rights to salvage materials from structure • Provision of all taxes, registration costs, and other fees incurred for replacement structure • Transfer and subsistence allowance of up to 3 months • Additional compensation for vulnerable households (item 5) 	<ul style="list-style-type: none"> • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP • Structure owners will reimburse tenants and leaseholders rental deposit or unexpired lease 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • Replacement cost at Community Consensus Valuation by Committee headed by CDO • SDS to determine viability of remaining structure • SDS to review allowances and verify all charges • EA through PMIU to ensure tenants and leaseholders receive reimbursement for rental deposit or unexpired lease
2c	Loss of structure	Residential/commercial structure and other assets (e.g. fences, gates, posts) structure	Encroacher(s) and squatter(s)	<ul style="list-style-type: none"> • Cash compensation equivalent to replacement value of structure (or part of structure) constructed by the AP • Rights to salvage materials from structure • Provision of all taxes, registration costs, and other fees incurred for replacement structure 	<ul style="list-style-type: none"> • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU

				<ul style="list-style-type: none"> • Transfer and subsistence allowance of up to 3 months • Additional compensation for vulnerable households (item 5) 		
3	Loss of Livelihood	Livelihood/source of income	Business owner (s), tenant (s), lease holder(s), employee(s), agricultural worker(s), hawker(s)/ vendors(s)	<ul style="list-style-type: none"> • Assistance for lost income based on three months lost income or minimum wage rates. • Additional compensation for vulnerable households (item 5) 	<ul style="list-style-type: none"> • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • Implementing NGO to determine income loss/minimum wage during detailed socio-economic surveys conducted as part of the RP
4	Loss of crops and trees	Standing crops and trees	Owner(s) with legal title, tenant(s), lease holder(s), share cropper (s), encroacher(s), and squatter(s)	<ul style="list-style-type: none"> • 60 days advance notice to harvest standing seasonal crops, if harvest is not possible, cash compensation for crops (or share of crops) equivalent to prevailing market price • Cash compensation for perennial crops and fruit bearing trees based on annual net market value multiplied by remaining productive years • Cash compensation equivalent to prevailing market price of timber for non-fruit trees 	<ul style="list-style-type: none"> • Work schedule to allow harvesting prior to acquisition and avoid harvest season • Market value to be determined 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • Replacement cost at Community Consensus Valuation by Committee headed by CDO with assistance from agriculture/horticulture expert
5	Impacts on Vulnerable APs	All impacts	Vulnerable APs	<ul style="list-style-type: none"> • Land-for-land option, alternative house site will be a guaranteed option for vulnerable APs • Training and skill development including provision of toolkits for 1 member of AH • Vulnerable households will be prioritized in any employment required for the Project 	<ul style="list-style-type: none"> • Vulnerable households to be identified during detailed measurement surveys conducted as part of the RP • Land title will be to both husband and wife 	<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • Implementing NGO to assist the Vulnerable APs in provision of employment opportunities and to avail the land-for-land option
6	Temporary loss of land	Land temporarily acquired for the Project	Owner(s) with legal title, tenant(s), lease holder(s), share cropper (s), encroacher(s), squatter(s)	<ul style="list-style-type: none"> • 60 days' advance notice • Provision of land rental value during the duration of temporary acquisition • Restoration of affected land 		<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU • SDS to determine rental values in consultation with APs • Restoration as part of contractors contract
7	Temporary	Temporary loss of	Owner(s) with	<ul style="list-style-type: none"> • 60 days advance notice • Provision of temporary 		<ul style="list-style-type: none"> • Verification of APs by SDS of PMIU

	loss of access	access to land, structure, utilities, common property resource	legal title, tenants, lease holders, share croppers, encroachers, squatters	access (e.g. planks across pipe trench) where possible • Restoration or enhancement of affected land, structure, utilities, and common property Resource		• PMIU to ensure restoration as part of contractor's contract
8	Temporary loss of livelihood	Temporary loss of livelihood or source of income	Business owner (s), tenant (s), Lease holder(s), employee(s), agricultural worker(s), hawker(s)/ vendors(s)	• 60 days advance notice • Provision of temporary access (e.g. planks across pipe trench) where possible • Provision of alternative sites for continued economic activity • Where provision of alternative sites is not feasible, compensation of lost income • Compensation for agricultural losses (item 4) • Restoration of affected land, structure, utilities, common property resource		• Verification of APs by SDS of PMIU • Implementing NGO to determine income loss/minimum wage during detailed socio-economic surveys conducted as part of the RP • PMIU to ensure restoration as part of contractors contract
9	Any other loss not identified			Unanticipated involuntary impacts shall be documented and mitigated based on the principles provided in ADB's IR Policy		

V. CONSULTATION AND GRIEVANCE REDRESS

A. Introduction

31. This RP has been prepared in consultation with stakeholders at different levels including the local people and AHs represented by head of the households, family members, representatives of political parties, representatives of vulnerable group, and other resource persons.

B. Public Consultations

32. Public consultation was carried out in different stages during subproject preparation. Consultations employing various methods; focus group discussions with APs have been carried out. In addition, key informant interviews involving APs (including vulnerable APs), village heads, and government agency representatives have been undertaken. The issues raised are being addressed in the safeguard documents. The scope of consultation, especially with local people and APs was focused to inform them about the nature of the Project and its activities. During the consultations, they were informed about the possibilities of acquisition of private land and other physical assets by the Project. Options of relocating, shifting, and loss of employment as per need and provision of livelihood support to the vulnerable groups were some of the other issues discussed during consultations. In addition, the consultations also aimed at obtaining stakeholders' opinion and suggestions.

33. The following table summarizes the proceedings and key issues raised during the consultations.

Table 9: Summary of Consultations

Location and Date	Topic	Views, Concern and Suggestions
Kachari Hawa, Siddhartha Nagar Municipality, Ward No. 9 9 January 2013	Land acquisition and compensation	AHs are well informed about land acquisition and process of compensation fixation and its valuation based on replacement value. They were expecting employment opportunities from the subproject during implementation.
Shankarpur, Siddhartha Nagar Municipality Ward No.10 9 January 2013	Land acquisition and compensation	The acquired land of the Project should be fenced by CAAN as soon as possible. There is high expectation for employment opportunities during the subproject implementation. They suggested that the Project should be implemented as soon as possible as the land acquisition process and compensation distribution is almost completed.
Dharampur, Siddhartha Nagar Municipality Ward No. 10 10 January 2013	Land acquisition and compensation	The fencing in the acquired land by the CAAN should be constructed.
Dogari, Siddhartha Nagar Municipality Ward No. 10 10 January, 2013	Land acquisition and compensation	They suggested that the remaining land should be acquired by the Project if it is not viable for the cultivation and other uses. If unanticipated impacts become apparent during the project construction such as changes in design and alignment, the Project should address additional land acquisition prior to construction work starts.
Hatti Bangai, Siddhartha Nagar Municipality Ward No. 10 11 January 2013	Land acquisition and compensation	AHs are well informed about land acquisition, process of compensation fixation and its valuation based on replacement value. They were expecting employment opportunities from the subproject during implementation. They suggested that the Project should be implemented as soon as possible.
CAAN Office, Siddhartha Nagar 11 January 2013	Land Acquisition, Compensation and Resettlement	There are no serious grievances with regards to land acquisition and compensation payment to date. However, a small portion of land, which is not viable for cultivation and other uses need to be assessed with AHs and other stakeholders in coming months. Further, CAAN added that the process of land acquisition and compensation payment has been smoothly going on without any serious issues and grievances.

C. Disclosure of Resettlement Plan

34. The Project has disclosed entitlement information to the APs through social media, mobile public loudspeaker, pamphlets, and consultation meetings in the project area. Executive summary of the RP and entitlement matrix has been translated into Nepali language and made available to APs. The translated section of RP in Nepali language is available at: (i) Office of the Director General, CAAN, Kathmandu, (ii) Office of the Chief Airport Manager, GBA, (iii) Hatibangai VDC office; (iv) District Administration Office; and (v) PMIU. Any person seeking information can obtain a hard copy of the complete RP document at the cost of photocopy from PMIU, on a written request and payment for the same to the Project Director.

Electronic version of the RP will be placed in the official website of CAAN and the official website of ADB after endorsement of the documents by the Government.

35. The PMIU will conduct information dissemination sessions and focus group discussions with APs and vulnerable groups during project implementation. PMIU will organize public meetings to inform the community about compensation payment arrangements. Participation of APs will be further enhanced through their active involvement in the Grievance Redress Committee (GRC). In addition, PMIU will maintain continuous interaction with APs to identify problems and undertake appropriate remedial measures.

D. Grievance Redress Mechanism

36. A grievance redress committee has been formed with a representative of APs within GBA to register and hear grievances of the people regarding technical, social and environmental concerns. The other members of the committee are GBA authority, local representatives, and representatives from CAAN in the rank of Airport Manager.

37. Grievances of APs will first be brought to the attention of field level Social Specialist of PMIU. Grievances not redressed will be brought to GRC. The Committee will meet every month (if grievances are brought to the Committee), determine merit of each grievance, and resolve grievances within 15 days of receiving the complaint. Further, grievances not addressed will be referred by APs to the appropriate courts of law. PMIU will keep records of all grievances received including: contact details of complainant, date the complaint was received, nature of grievance, agreed corrective actions, dates they got affected, and final outcome. APs can call for SDS assistance in presenting their grievances or queries to the GRC.

38. If the grievance redress committee cannot find amicable solution to the grievances, the APs reserve right to use formal channels as described in Land Acquisition Act, 1977. The Act assigns the Chief District Officer (CDO) as the sole responsibility to chair land acquisition activities and to address grievances related to the RP implementation. Some of the major steps that are supposed to be taken for addressing the grievances are stipulated in the Act (Clause 11 sub-clause a, b and c). In keeping with the legal provision mentioned in the Act, the basic process of grievances redress undertaken under the subproject will be as follows.

- Decisions should be given within fifteen days after receiving grievances.
- Further processing of grievances or any decision should be taken only after consultation with CDO and also the Project Officer, if deemed necessary; and
- The Ministry of Home Affairs can exercise legal authority as of District Court while investigating such grievances.

VI. INCOME RESTORATION STRATEGY

39. Income restoration strategies proposed include (i) capacity building, enterprise training, and facilitating economic activities to landowners; (ii) training for self-employment to agricultural laborers; and (iii) preference in employment opportunity generated by the Project. All APs will be eligible for income restoration options to restore APs' income immediately before and after relocation, and providing short-term allowances such as subsistence and/or disruption allowances, rental stipend, and shifting allowances. At least one member of each AH will be given opportunity to participate in income generating training. APs will be given

priority for employment in civil works construction. The contract documents will include provisions regarding preferential employment in unskilled labor. Preference will be given to APs for employment expected to be generated by the upgrading of the GBA.

A. Life Skill Training

40. PMIU, in coordination with district agriculture development office (DADO), will guide in improving agricultural production including use of modern techniques in cultivation, harvesting and storing for the agricultural landowners losing their land. PMIU, in consultation with landowners and DADO will provide necessary training for crop diversification and production of cash crops and off-seasonal vegetables.

41. All affected households will be eligible for the training. It is estimated that about 25% of the affected households will participate in agri-business training with support from DADO, 25% will be trained as fire and rescue persons to be organized by CAAN training academy. The GBA will train about 300 persons as airport operation and housekeeping, of which 25% will be affected households. The trained persons will get employment under GBA. The remaining 25% affected households will participate in life skill training (LST). Vulnerable households will be given priorities to participate in life skills training in case of prioritization needed during implementation. The Project will organize LST, which will have a skill test and are certified by the Nepal Skill Testing Board (NSTB). The NSTB has now standardized courses in 243 different trades. NSTB has five different levels of skill courses. However, the project training will be confined to Level 1, which has 390 hours credit with 2 months training and 1 month on the job training. PMIU will be responsible for planning, managing and implementing the training.

42. The Project will hire a vocational training expert for 4 person-months in an intermittent basis in DSC (Safeguard Specialist –Social), who will identify potential trainees, conduct needs assessment, ensure quality of training, verify job placement, and liaison with district line agencies for training planning and implementation. The expert will also prepare training implementation plan, which will include modality of training implementation, terms of reference for training providers and prepare expression of interest/request for proposal. A training provider will be recruited through competitive bidding to conduct training. A post-training impact assessment is proposed by a vocational training expert after one year of training implementation. Household asset-base and socioeconomic status will be compared with the pre-project situation. Baseline indicators will be developed during training planning and implementation.

B. Employment Opportunity

43. During the construction stage, the APs will be given preference over others to be engaged in activities suitable to their skills. In order to make the APs employable, PMIU will identify required skills for construction works prior to commencement of construction and provide required training to APs. The contract document for the subproject shall include a provision for employment under the social requirements. Accordingly, the list of APs, especially vulnerable groups, will be provided to the contractor, for consideration in the Project.

44. Further, the APs will be given preference in jobs in the Airport whether they have to be hired directly by the Ministry of Culture, Tourism and Civil Aviation (MOCTCA) or through an outsourced agency in the following areas; baggage handling, housekeeping, waiters at the

restaurant, and retailing. Given the potential for improvement of Lumbini as a significant tourist destination and the GBA being the gateway to Lumbini, there is a need for qualified tourist guides. The subproject will impart training to educated female and male youth from among the APs who have the right aptitude to become guides. After taking training, MOCTCA will register them and provide identity cards.

VII. INSTITUTIONAL FRAMEWORK

45. This chapter describes the implementation framework, and role and responsibilities of organizations involved in implementation of the subproject.

A. Project Management and Implementation Unit (PMIU)

46. MOCTCA is the EA. Project Coordination Unit (PCU) will be established within MOCTCA. PMIUs will be established for GBA and Lumbini sites. The PMIU will have a full-time safeguards officer (SO) and designated as in-charge of the land acquisition and resettlement operations, who will report the Project Director. The SO will oversee and manage social issues and social safeguards. He/she will work in close coordination with respective government line agencies and the Project on implementation of RP. The PCU has hired Design and Supervision Consultant (DSC) including Social Safeguards Specialist (SSS) in the team. The SSS will provide technical support to SO including implementation of the RP provisions, according to ADB requirements, and assist in monitoring the associated impacts and mitigating measures. The SSS will be responsible for monitoring and managing other social issues in the subproject.

47. The Project Director will be responsible for coordinating with the Chief District Officer (CDO) of the subproject district with regard to formation and implementation of CDC by providing necessary documents and assisting valuation of assets to be compensated. Land Acquisition Unit in GBA supported by SDS will play a key role in implementing the RP. SDS will regularly update PMIU on implementation of resettlement activities at the subproject level.

VIII. RESETTLEMENT BUDGET AND FINANCING

48. The detailed budget estimates for IR is in the RP, and is included in the overall project cost estimates. The budget includes: (i) detailed costs of land acquisition and resettlement assistance, (ii) source of funding, (iii) arrangements for approval, and (iv) flow of funds and contingency arrangements. All land acquisition funds will be provided by the EA. All land acquisition and resettlement assistance will be considered as an integral component of project costs. The EA will earmark in advance in its annual plan, the provisional budget for the cost of land acquisition and resettlement.

49. A preliminary cost for assets likely to be affected by the Project and cost for other financial assistance and support for APs including other associated costs has been estimated to implement this RP. This cost estimate has to be revised and updated in case of any change during the implementation. The Government will bear all the costs of land acquisition.

A. Basis Taken for Estimating Compensation Cost

50. Valuation of affected assets was based on the existing legal frameworks and entitlement matrix agreed in this RP. While calculating land value, the compensation rates

mentioned by the APs and the local rates quoted by the District LRO was taken as basis. With regard to structures' cost, the rate determined by Department of Urban Planning and Housing was taken as a basis for estimation. The Department annually updates the rate based on current market value. Besides, other resettlement assistance in terms of shifting cost and transitional allowance were estimated based on social consultations, past project experiences and market rates. Table 10 provides breakdown of the resettlement and rehabilitation cost estimated for the subproject.

Table 10: Revised Estimated Resettlement Budget

S.N	Description	Unit	Quantity	Rate/Unit (NRs)	Amount (NRs)	Remarks
1	Compensation for private land	Ha	94.8	4,764,321	451,656,847	92% paid (NRs423,258,179)
2	Residential structures	no.	17		3,446,678	Paid
3	Schools	no.	2		3,054,332	paid
5	Community structure (Shrine)	no.	1	22,000	22,000	Relocation cost
6	Bore wells	no.	23	750	17,250	Relocation cost
7	Sheds	no.	6		510,000	paid
10	Rehabilitation measures(assistance)	no.	151		1,000,000	Not yet implemented
11	Life skill training	Lump sum			4,000,000	Revised cost
12	Monitoring and evaluation	Lump sum			1,125,000	Same as original RP
13	Administrative cost				1,930,500	
	Subtotal				466,762,607	
	Contingencies @ 10%				46,676,260	
	Total				513,438,867	NRs263,428,825 was estimated in the original RP

IX. IMPLEMENTATION SCHEDULE

51. CAAN, following the government requirements, has initiated the land acquisition process in accordance with the Land Acquisition Act 1977. The CDC chaired by CDO has fixed the compensation rates and issued public notice to apply for the compensation claim. The CDC supported by GBA authority verified the eligibility of APs and paying compensation to verified APs. CAAN has already completed the compensation payment to majority of APs. A total of 95% plots have been compensated. A total of 33 households remain to be compensated. The RP implementation schedule for the outstanding activities is provided in Table 11.

Table 11: RP Implementation Schedule (Starting November 2013)

Activities	Months									
	1-2	3-4	5-6	7-8	8-9	10-11	12-13	14-15	16-17	18
Complete outstanding compensation payment	*	*	*							
Distribute assistances, if any	*	*	*							
Finalize training implementation plan			*	*						
Recruit training provider				*	*	*				
Conduct training						*	*	*		
Perform internal monitoring	*	*	*	*	*	*	*	*	*	*
Carry out external monitoring					*					*

X. MONITORING AND EVALUATION

52. Implementation of RP will be monitored internally and externally. The internal monitoring will be conducted by PMIU and external monitoring by an independent consultant.

A. Internal Monitoring

53. PMIU and the DSC will be responsible for internal monitoring. The social/resettlement specialist of DSC will provide necessary technical assistance, monitor implementation of RP and prepare semiannual reports on the progress achieved.

54. PMIU will maintain a record of all transactions in their resettlement database, followed by entitlement records signed by APs and survey-based monitoring of resettlement/land acquisition progress on a monthly basis. The monitoring will ensure:

- Verification that there are no outstanding or unresolved land acquisition issues and that property valuation and economic rehabilitation has been carried out in accordance with the provisions in RP;
- Information campaign and consultation has been carried out with APs;
- Status of land acquisition and payments on land compensation;
- Value of entitlement received is equal to that of original structure or land acquired;
- Effective utilization of entitlements received;
- Compensation for affected structures and other assets;
- Relocation of APs; if applicable
- Economic rehabilitation measures are implemented, as approved;
- Effective operation of both the Grievance Committees; and
- Funds for implementing land acquisition and economic rehabilitation activities are available in a timely manner, are sufficient for the purposes, and are spent in accordance with RP.

55. A performance data sheet will be developed to monitor the subproject at the field level. Quarterly reports will be received from PMIU and sent to PCU for overall project level monitoring. Social/resettlement specialist will monitor the RP implementation and will report on a quarterly basis to PCU and ADB on resettlement progress. Monitoring and evaluation reports with progress on resettlement implementation will be provided by CAAN to ADB for review. The monitoring reports will be submitted to ADB on a quarterly basis.

B. External or Independent Monitoring

56. An external monitoring agency will be engaged by PMIU who will carry out independent review of resettlement implementation as well as post project evaluation throughout the project cycle. External evaluation can be done by a consulting agency, university department or development NGO or individual expert. The external monitoring will be focused on:

- Evaluating social and economic impact of land acquisition and rehabilitation of APs;
- Verifying the objective of enhancement or at least restoration of income levels and standard of living of the APs;
- Suggesting modifications in land acquisition and economic rehabilitation, where necessary, to achieve the principles and objectives as set before; and
- Making final ex-post evaluation to ensure all resettlement and land acquisition activities have been completed; and any problems/issues identified are followed-up (including recommendation of mitigation measures with budget requirement).

57. More specifically, the following activities will be required to be performed by the external monitoring agency:

- Verification of internal monitoring – to ensure appropriateness of activities being carried out by PMIU and field offices;
- Evaluation of delivery and impacts of entitlements – to determine if they are as per the approved RP;
- Evaluation of consultation and grievance procedures – especially levels of public awareness of grievance procedures, access of APs and households to information and rapid conflict resolution;
- Evaluation of actual operations of grievance committee – assisting APs as required and acting as observers;
- Declaration of successful implementation – summing up the outcome of activities on completion of all entitlements distribution and resettlement activities; and
- Recommend follow-up actions for the EA – relating to outstanding actions required to complete achievement of objectives of the RP and resettlement policies, additional mitigation measures for APs, if required, and timing and budget of these additional measures.
- Describe lessons learned for future projects.

58. **GBA Description:** Upgrading of GBA to an international standard will require improvement of the existing facilities and construction of additional physical infrastructure. This will include: (i) expansion of the existing runway, fire station and fuel farm; (ii) widening of the existing runway and taxiway; (iii) strengthening pavement of runway and taxiway; (iv) improvement of the side strips, existing airside drainage and landside drainage, water supply system, and security fence; (v) construction of diversion of Ghaghara Khola, irrigation channel crossing in runway expansion, a new apron (with rigid pavement), terminal building, control tower, airlines building, customs and cargo building, aircraft maintenance building, and security posts; and (viii) relocation of road in runway expansion area. A description of the key improvements proposed is summarized below.

59. **Runway, Taxiway and Apron.** Aerodrome structures (runway, taxiway and apron) are priority improvement proposed for this airport. As the aerodrome is going to be improved for designed aircraft of Boeing 777 series, it will be upgraded into '4E' category as per ICAO standard. This proposal for improvement has a plan to construct new runway of 3,000mX45m toward south 182.5m from the existing runway center line in the same direction. The design life of the aerodrome is estimated to be 20 years and design aircraft is Boeing 777 and Air Bus 340

series or equivalent.

- (i) The runway strip will be 3,202m length with 300m width. On either end of the runway strip is taken as runway end safety area. After the completion of the whole improvement works, the existing of 1,500mX30m runway will be converted to parallel taxiway with expansion of about 300m. There are three links taxiway of 145m length with 23m width. The existing taxiway is retained and link to apron to parallel taxiway while width is widened from 15m to 18m with 3.5m paved shoulders on each side of the taxiway. As per design document, the existing taxiway culvert is sufficient for this width of taxiway and shoulders. New apron will be of 180mX120m in size for parking 3 Boeing 777 and Air Bus 340 series aircrafts at a time with taxi in/push out ingress and egress. It has been designed with rigid pavement. To access between apron and new terminal building and use of ground handling equipment, a service ramp of 96mX42m has been proposed.
- (ii) **Drainage Improvements.** Two parallel side drains are draining out water from the existing runway. These drains are brick lined fixed width with varying depth and drain outflow at retention pond constructed at north-west corner of the runway, which is also linked with Ghaghar Khola. The proposed improvement of landside drains consists of two parallel collector drains on east-west directions. One is along the north boundary of land side area and another is at an intermediate location. Both these collector drains outfall to major collector drain proposed along the west side boundary close to Ghagha Khola. There will be networks of other drains, which will drain various subareas. Drainage improvement works includes various drain outlets such as drop structures, sluice channel, culverts, inlets and outlets, and super passage.
- (iii) **Improvements to Airport Building and Terminals.** The new terminal building is under construction at west side of the existing terminal building which will have facilities to cater to the proposed international airport needs. In addition, the improvements shall include new control tower; airlines building; customs and cargo building; aircraft maintenance building; and security posts.
- (iv) **Service Roads and other Road Improvements.** Currently, GBA is connected by the Bhairhawa-Taulihawa Road, which is approximately 3km away from the city center of Siddhartha Nagar. Link road is asphalt concrete and taxi service is good at present and is of an intermediate lane configuration. Towards improvement of the access to the airport, separate roads of two-lane configuration for entry and exit to the airport are proposed. In addition, access to service ramp, revision of access from staff quarters and fire station areas are proposed. In addition to the improvements proposed to cater to the expanded airport, the project also includes the reconstruction of village roads, which are getting disrupted due to the proposed acquisition for expansion. A total of 5km roads of single and intermediate lane configuration are proposed to be developed as part of the project to restore access to the village roads.

60. **Equipment:** Apart from basic navigational and communication equipments, the airport will offer Category I Instrument Landing System and Fire Fighting equipment. These infrastructure improvements are in accordance with the requirements of ICAO guidelines for a category 4E airport. The overall cost of the project including taxes and contingencies is \$85.6 million.

Key Features of Gautam Buddha Airport

Item	Description
Location

Zone	Lumbini
Development Region	Western
Elevation	105 m amsl
Aerodrome Reference Point	27 ⁰ 30'20" N and 84 ⁰ 24'30" E
Date of First Service	4 July 1958
Land Assets	84 Bigha and 3 Katha (57.3 ha)
Runway Designation	10/28
Surface	Bitumen
Services	Air Traffic Control
REF	Category V
Design Aircraft	HS- 748, ATR-42, SAAB-340
Temperature	Minimum 15 ⁰ Celsius, Maximum 35 ⁰ Celsius
Annual Rainfall	700mm
ICAO Code	VNWB
Runway Length (m)	1,524m
Runway Width (m)	30m
Air Links	Kathmandu and recently Pokhara

Inventory of Project Affected Land Plots, Persons/Households and Compensation
